

# COVID-19

# Facts & Information

Coronavirus Disease 2019, or COVID-19, is a new respiratory virus first identified in Wuhan, Hubei Province, China.

Spreads via coughing and sneezing or by objects which are likely to carry infection, such as clothes, utensils, and furniture.

Currently, there is no vaccine available to protect against COVID-19.

## Tips for Prevention

Wash your hands often with soap and water for at least 20 seconds.

Use an alcohol-based hand sanitizer that contains at least 60% alcohol.

Wear a cloth face covering in public settings.

Practice social distancing by avoiding close contact (within 6 feet) with others.

Clean and disinfect frequently touched objects and surfaces.

Avoid touching your eyes, nose, and mouth with unwashed hands.
